PRODUCT GUIDE

Commercial Vacuum Tanks

PRODUCT EXCELLENCE IN THE WATER AND WASTEWATER INDUSTRIES

COMPANY HISTORY

Pik Rite, Inc. is a 30-year-old manufacturing company. The company embraces a culture of communication and customer service that complements a long standing reputation for quality and excellence. Specializing in commercial vacuum tanks, agricultural equipment and truck bodies, Pik Rite products are recognized nationally and internationally for superior design, durability and workmanship. Pik Rite operates from manufacturing facilities that encompass 67,000 square feet. Elvin Stoltzfus and Joe Yoder, Pik Rite's original founders, have diverse backgrounds in farming and welding shop activities. Pik Rite was incorporated in July 1986 and presently employs approximately 70 people. Pik Rite initiated its product line diversification plans and began to manufacture commercial waste handling vacuum tanks in 1998.

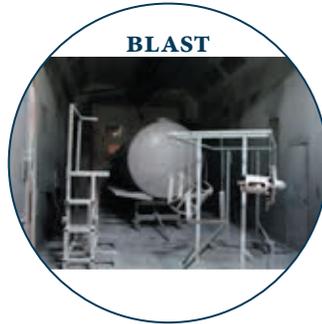

PROUD MEMBER OF

Quality USA Manufacturing

BUILT TO WORK THE WAY YOU WORK

Pik Rite's commercial waste handling equipment line has expanded and features standard and custom-built trucks or trailer mounted septic tankers from 1,000 to 5,500 gallons. Pik Rite also manufactures slide-in units sized at 300 and 450 gallons and 900, 1,100 and 1,500-gallon portable toilet units. Premium vacuum pumps, components and protective paint finish are all used in the manufacture of Pik Rite waste handling equipment. Pik Rite can work with both new and used truck chassis and can provide assistance to the buyer in obtaining financing.

Slide-In Portable Toilet Service Units

Slide-in portable toilet service units are a budget friendly option for small jobs. The features and options on each unit make Pik Rite the ideal choice. Our tank-in-a-tank design distributes the weight evenly for safety in transportation.

Customer Reviews

VERY HAPPY

I tried a tank from another manufacturer but was very dissatisfied with it. However my experience with Pik Rite has been outstanding. I was looking for some custom options that their sales and engineering teams were able to turn into a reality for me. They really listened to me and made me feel so comfortable to work with them. I am very happy with the way my new Pik Rite truck looks and all the special features it has!

Bill Grier-GRIER'S POWER DIGGING LLC
Mendon, OH

WELL CARED FOR

We could not be more impressed with the quality of Pik Rite's vacuum tanks. We recently had an accident in which our 3600-gallon pumper truck rolled over and slid on its side before hitting a light pole. The tank was full at the time of the accident but it never spilled a drop. We were so thankful to have a Pik Rite tank on that truck and our new truck will soon have another Pik Rite tank on it! Everyone from the sales team and engineers to parts and service personnel make you feel like family and are so easy to work with. They always have good answers to our questions and suggestions for any problems that we are facing. We have had zero issues with any parts or components of our Pik Rite equipment and find it very user friendly. This company has truly gone above and beyond to make sure that we are well cared for!

Amber King-K&M SEPTIC
Volant, PA

NOTICEABLE DIFFERENCE

Pik Rite tanks just stand out. I've been to many trade shows with Dave Hapchuk and have seen a noticeable difference in the quality and workmanship of Pik Rite tanks. Their engineers and sales team have it down to a science. They think through possible headaches and fix them before they occur. Not only does the paint job visually stand out from the competition, but their tanks don't leak! The entire product is built right. You can tell they are not just pushing a product out the door. They really care about and have a great relationship with their customers.

Washington, PA

QUALITY OF PRODUCT

We recently purchased our 18th truck from Pik Rite. We met the guys from Pik Rite at the Pumper show, when it was in Nashville. After talking to just about every pump truck manufacturer and comparing all their products, we went with Pik Rite because they were very interested in designing and building a truck that works the way we work. But it's the quality of their product, the quality of their service and the quality of their people that keep us coming back.
